

[REDACTED]

Dear city council,

I have always believed that competition is good for several reasons.

First, according to the passage it says, "It can be about working together with others to accomplish a goal. This means, you can be a champion."

Second, competition It's about finding out how well you can do something under pressure. This means if you work harder you will get stuff accomplished.

Last, It's about challenging yourself to get better. This means work hard to get better and get smarter.

In conclusion, these
are the reasons why I think
competition is good.

[REDACTED]

Dear city council

I have always believed
That competition is bad.

First, according to the passage.
Even in a Thesaurus, other words
for "competitive" are blood thirsty
and "cutthroat." This means
Competition is bad.

Second, according to the
Passage The pressure is to do anything
to win. This means they will let
them cheat to win.

Last, according to the passage
Kids and coaches are under so much
pressure to win today, that the fun
has gone out of playing sports
for many.
This means some kids don't enjoy
playing sports
