

# Should We Conserve Natural Resources?

First I thought  
you should protect the Earth because  
the Earth would be dark. If you smoke  
then the Earth's air would be dirty.

After then I learned  
After watching Water is speaking  
I realized that if we didn't have  
plants or animals we wouldn't be here  
today.

---

After researching a way to help the  
planet Earth I discovered that a small  
bottle can be something bigger and  
better if you recycle.

Now I think  
water doesn't need people people  
need water.
