

Banned Video games!

~~History~~
~~Book~~

According to entertainment centers they say that playing video games is healthy but I will give you some reasons why video games should be banned.

One reason we should banned video games is because if you play a video game for more than 1 hour you would become more addicted to it.

Another reason we should banned video games is because it costs alot of money to buy a game it might cost \$45 or more and that is counting the play station cost.

A mainly important reason we should banned beauty pageants is because it is unhealthy if you sit 12 hours without moving a muscle hardly.
